

Lesson 17:

Review Sounds: Quickly practice the sounds you learned!

m	t	a	s	d
i	f	r	th	l
o	n	p	e	h
v	sh	u	b	k
ck	c	g	j	w

Great job! Look how many sounds you know! Use the review to see what sounds your child may need additional practice with. You want the child to know these automatically.

Reading Irregular Words: We are going to learn a new word. This is another 'silly' or irregular word that we say somewhat differently than it should sound out.

WAS /w//a//z/ is how this word should sound out but this word is a little "silly" or irregular.

We say **was** /wuz/. Let's read **was** together. Finger track and say **was** with the child. Then have the child track and say it alone. If the child sounds out **was** as /w//a//s/ say something like "Stop, that's how we should sound out the word but do you remember how we say it? We say **was** /wuz/.

Great job SAYING the word **was** correctly. I'll use our new word in a few sentences so you can hear the word. These sentences are strictly for the adult to read to the child as they contain sounds the child has not yet learned. When you read emphasize **was**: --Grandma **was** happy she got to come and see you. --Mike **was** a good basketball player. --Jessica **was** kind to her classmates.

Now practice reading **was** correctly. Have the child finger track as he says the word correctly.

was was was was

Reading Sentences: Ok, now it's your turn to read our new word in a sentence. Have child read the following sentences. Immediately correct any errors. If the child makes an error on the irregular words simply say "oops... do you remember how we say that word".

Mom **was** glad that I got the big fish.

Sam **was** a fun dog to pet. Sam **was** soft.

The bug **was** red and black.

I was sad.

The cat got wet. The cat was mad.

More Practice Reading Words: Have your child read the following words sounding out with finger tracking and proper blending. Correct any errors immediately.
